JFP Brand shape for image

How do I get my image on a page to have the JFP Brand shape?

- Go to the page with the image you want to update
- Click the image
- On the sidebar on the right, click the **Styles** tab
- In the Styles area click the **Clip Path** button
- You will see the image change to the JFP Brand shape
- **Update** the page and you’re done

Example: jesusfilm.org/resources/pray/2025-06-country
